

# Pure H2O™ Filtration

## Pure H2O FC

- Reduces chlorine taste and smell from city water
- Reduces turbidity

## Pure H2O FA

- Reduces particles
- Lowers turbidity

## Pure H2O AN

- Neutralizes acidic water
- Reduces turbidity

The Pure H2O series *FC* and *FA* filters are highly effective in treating a multitude of water problems. The Pure H2O *AN*, acid neutralizing system treats acidic water that can corrode entire plumbing systems, while removing unpleasant tastes and odors.

Pure H2O filters are environmentally safe — no toxic chemicals like other systems. The result is simply refreshingly good water from every tap, every time.

- **Environmentally Safe.** No toxic chemicals.
- **Adjustable Regeneration Cycle Sequences.** Programming can be adjusted to handle your exact water conditions.
- **Push-button Simplicity.** All settings and information retrievable at your fingertips.
- **Modular Design.** Provides quick servicing of the control. No bolts or screws mean most repairs can be done without tools.
- **Low Cost Operation.** Minimal maintenance.

### An Advanced Control Head

The Pure H2O control head electronically meters water consumption and automatically initiates the regeneration cycle only when needed. The “brains” of the Pure H2O systems adjust to your lifestyle and changing water usage, minimizing water consumption while monitoring and recording system performance, including:

- Days since last regeneration
- Gallons since last regeneration
- Reserve based on last 21 days of water usage
- Water flow rates
- Peak flow over last seven days
- Total days since start-up
- Total regenerations since start-up
- Total gallons used since start-up
- Program cycle times and sequence of cycles

This advanced control head also features an easy-to-read LCD display, convenient push-button interface and a manual regeneration mode. In the event of a power outage, the lithium battery backup retains all of your performance information.

## Pure H2O Filters

The Pure H2O FC and FA filters can be used in combination with Pure H2O series water softeners to provide a total water treatment solution. Count on us for expert assistance in analyzing your water quality and recommending the system best suited to your water conditions and household needs. With a properly configured system, you’ll enjoy the highest quality water possible.

### Acid Neutralizing Filter

Acidic water can be harmfully corrosive to your entire plumbing system. This condition can often be treated with a single acid neutralizing filter. Metered units monitor and self-adjust regeneration cycles based on household trend of water consumption.

### FILTER SPECIFICATIONS

MODEL NUMBER	CCBF-1054FC	CCBF-1054FA
Mineral Cu. Ft.	CARBON 1.5	AG PLUS 1.5
Gravel Amount Type	14 lb 1/4 x 1/8 7 lb #20	14 lb 1/4 x 1/8 7 lb #20
Cont. Flow Peak Flow	5.0 9.0	7.0 11.0
Backwash Flow GPM	5.3	8.0
Total Dimensions	10"W x 62"H	10"W x 62"H
Shipping Weight	Unit Unfilled 66 lb Mineral 50 lb	Unit Unfilled 66 lb Mineral 75 lb

### ACID NEUTRALIZER SPECIFICATIONS

MODEL NUMBER	CCBF-1054AN
Mineral Cu. Ft.	CALCITE 1.5
Gravel Amount Type	14 lb 1/4 x 1/8 7 lb #20
Cont. Flow Peak Flow	5.0 9.0
Backwash Flow GPM	5.3
Total Dimensions Tank Only	10"W x 62"H 10" W x 54" H
Shipping Weight	Unit Unfilled 66 lb Mineral 150 lb
