Details

The technician will spend time on each appliance, inspecting the unit and reviewing the operational information with you. Providing maintenance solutions and feedback, as needed.

Inspection	Education
Make sure all units are secure, without uninstalling appliances.	Review how to use the appliance; including using special features (e.g. steam dry, convection, etc)
	Review how to care for the appliance. Review any special cleaning instructions.
	Review use and care guide with customer. Explain where to look for features
	Open questions, solutions, and feedback as needed

Parts Needed?

The technician will give a detailed description and quote any parts and/or labor needed. The pricing comes from the New England Flat Rate Repair Guide. The technician will schedule a service call return trip before leaving the residence.
