

JOHNSON BROTHERS
— APPLIANCES —

OVER THE RANGE MICROWAVE

THANK YOU FOR SCHEDULING YOUR MICROWAVE INSTALLATION!

PLEASE ENSURE THE FOLLOWING PRIOR TO DELIVERY:

- ☐ A dedicated circuit, appropriate electrical outlet is within reach of supplied manufacturer power cord
 - Microwave Hoods will NOT be hardwired
- ☐ Venting direction is known and existing: Upper, Rear, Re-Circulating*
- ☐ Cabinet shelf is sound and in good condition for mounting of new product**
- ☐ Please notify your sales associate, prior to delivery, if existing full tile backsplash

If any of this above information is unknown or incorrect, please reach out to your sales associate with ample time prior to delivery for assistance.

* Our installers DO NOT supply or provide HVAC ducting or supplies. Our installers only connect to existing good functioning ductwork with the provided manufacturer accessories.

Our installers DO NOT make any modifications to cabinets or electrical. Specs for appliance must be met in order for full install completion. Our installers are on a scheduled timed route and cannot wait for alterations to be made. **If rescheduling is needed due to site deficiency, it is not guaranteed to be immediate. An extra trip & labor charge may be applied for each added visit.

Please Note: A re-circulating vented Microwave Hood CAN NOT be installed over a Gas Range per building code violation. Our installers will notify you of this & will install at your direction. However, we will require a Post Acknowledgement Release, and it will be noted in our records.
