Prices Effective: January 2, 2024
Version: 12012023

TO UNDERSTAND WHAT WE ARE ABOUT, HERE IS THE TRAILWAY STORY

What lies inside the craftsman who makes a fine Trailway dining set? What keeps him working hard each day with the utmost care? What motivates him to produce furniture that will endure the rigors of time and constant use? It could be the knowledge he possesses. He knows wood species inside and out. He is a master of the tools he uses. His keen eye can detect the kinds of imperfections in a board that make it unsuitable for use. He knows every measurement, every cut, and how to fit each piece together perfectly to create a work of art. But is he led by something more than just knowledge?

THE HEART OF A CRAFTSMAN

Yes, he is. It's his heart that leads him on. His heart that keeps him focused each moment on making the finest piece of furniture he can. His heart that guides every movement of his hand when he sands, every gaze of his eye when he inspects his work. Simply put, it's the heart of a Trailway craftsman, one full of passion and commitment, that results in the product of his labors — a masterpiece that will be treasured for generations to come.

Bourbon Trail Collection

THE FINEST WOODS

One characteristic of hardwood tables is that each plank used is unique. There are natural variations in color: lighter pieces were closer to the bark, darker pieces closer to the tree's center. At Trailway, we use both variations of color to give our tables a rich and outstanding beauty.

You will find natural markings on your table, such as knots where tree branches grew. They do not affect strength, and attest to the fact that your piece is genuine solid hardwood, with all its charming irregularities.

The best things in life are the ones that last for years, wear well, and fit just right. Trailway makes all its dining furniture from solid USA grown hardwoods, all dining is hand crafted and built with American pride. Good things happen to people who focus on quality.

The beauty of solid hardwood is on the outside, but under the surface lies a combination of strength, flexibility and durability that cannot be matched by synthetic or engineered substitutes.

Pictured above:
Fort Knox Collection

Picture: Hand Plane
(Hand Planes are used to smooth out the surface of wood)

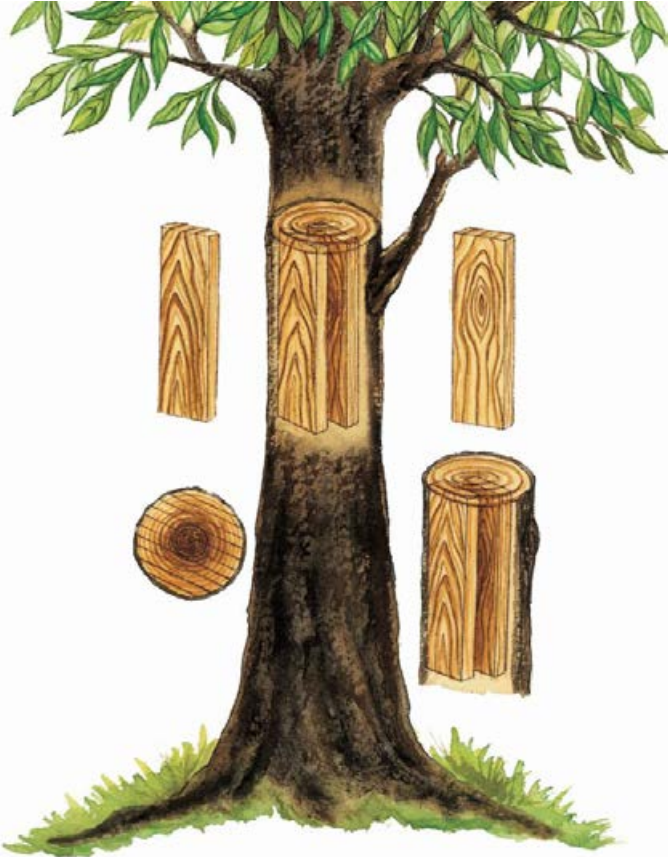

BENCH-MADE MANUFACTURING

Each edge of each board is made to fit exactly with another. Boards are matched for grain and color. Holes are precisely drilled to exact standards for table pins before assembling slides, base plates and aprons. Then table tops undergo further sanding to prepare them for finishing. No time is spared in making sure surfaces are ultra smooth to receive the chosen stain. Every Trailway table and chair is made to the same high standards of craftsmanship.

The first critical step in producing fine hardwood furniture is selecting the best, most consistent woods. We insist on only the finest color and grain pattern. We then store our lumber in a humidity-controlled environment to minimize expansion and contraction during manufacturing.

In the hands of a Trailway craftsman, hardwood is carefully chiseled, carved and sanded into a stunning design. No one-size-fits all. Just quality craftsmanship that lasts. Table top shapes are cut by hand. Edges are sanded to ultimate smoothness.

The above picture shows a standing tree and how the boards are cut from the tree after it is harvested

WOOD SPECIES

Beautiful Trailway tables, chairs and hutches begin with natural raw materials. We use some of the finest hardwoods, harvested through sustainable forestry management principles, to create our heirloom quality furniture. Some wood species, such as cherry and elm, boast rich, dark tones that imply elegance and sophistication, while others, including hickory and maple, feature naturally lighter shades for more casual table designs. Character woods highlight the natural markings that give each piece unique beauty, and many species feature distinctive wood grains. The species of wood we use to create our furniture helps determine the overall style and feel of finished pieces.

RED OAK (FREE)

With a traditional, coarse-textured look, Red Oak is a popular hardwood that offers durability and strength to stand up to years of day-to-day living.
Janka Scale: 1290

BROWN MAPLE (FREE)

Brown Maple, the same tree that produces the delicious syrup for weekend pancake breakfasts, offers a rich, delectable choice for so many table styles.
Janka Scale: 950

RUSTIC CHERRY (FREE)

Rustic Cherry takes on a more relaxed feel, With all the natural knots and grain variations, it brings a truly unique look to any table.
Janka Scale: 950

RUSTIC QSWO (FREE)

Cut perpendicular to its growth rings, revealing all of the tree's naturally beautiful markings, Rustic Quarter Sawn White Oak (R. QSWO) has a down-home feel.
Janka Scale: 1333

RUSTIC HICKORY (FREE)

Revealing all of the tree's naturally beautiful markings and color variations, Rustic Hickory gives tables a very rustic look.
Janka Scale: 1820

RUSTIC RED OAK (FREE)

Loaded with rustic charm, Rustic Red Oak boasts the burls, knots and other natural markings that give Trailway tables a comfortable, inviting feel.
Janka Scale: 1290

AMBROSIA WOOD (FREE)

Ambrosia Wood gets its name from the Ambrosia Beetle who makes a hole in the wood. As the tree grows, the wood around the hole turns brown making each piece unique.
Janka Scale: 950

TIGER MAPLE (FREE)

With a unique Tiger Stripe texture, Tiger Maple character offers a rich, delectable choice for so many table styles.
Janka Scale: 950

FLAT SAWN WHITE OAK (FREE)

Flat sawing a white oak log is a technique that involves cutting the log parallel to its growth rings. This results in a plank with a broad surface that showcases the wood's natural grain patterns. Flat sawn white oak planks yield an irregular grain pattern depending on where the board came from inside the log.
Janka Scale: 1333

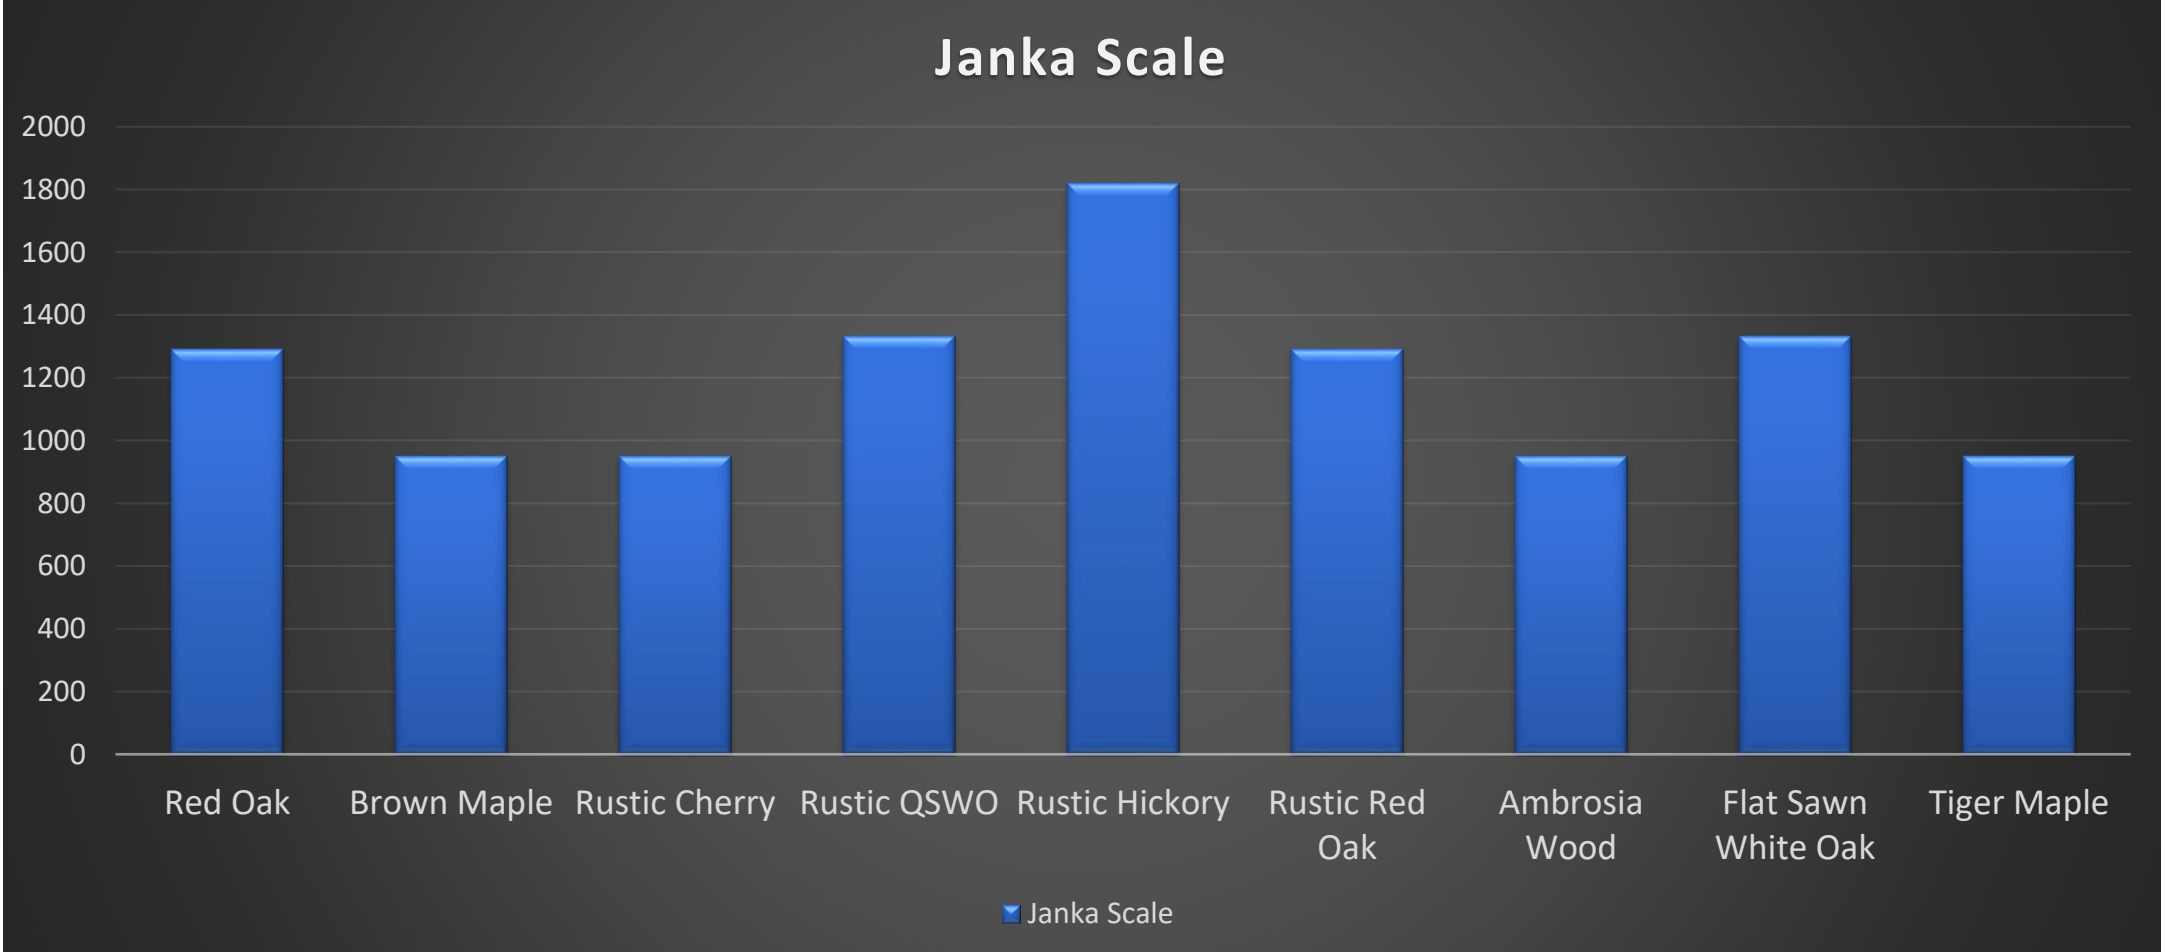

MOST IMPORTANT MESSAGE IN OUR CATALOG

Is your family expanding? Or are you having friends or relatives over in the near future? If so, our 4 leaf tables are an extremely great value. Below is an example of the Easton Pike Collection. (Based on EP4266-2L vs EP4266-4L)

Upgrade now for: **\$ 250** versus later at: **\$ 700** for 2 leaves

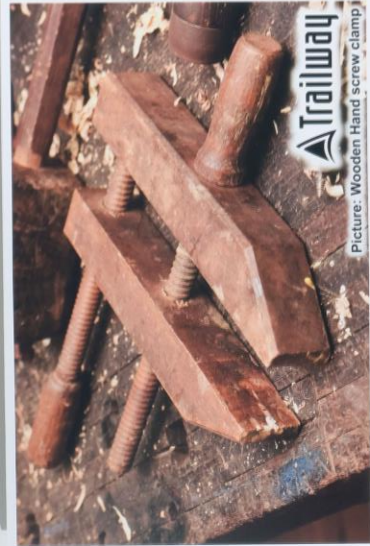

To add an additional Leaf to an existing table Please add: **\$ 350** per leaf

Janka Scale embodies the pressure in pounds that it takes to mar the hardwood, A higher numbers means the wood is harder. See below for a Graph comparison to each species.

STAIN & PAINT OPTIONS

Note: All stains can be applied to all wood species, Colors shown are approximate

Our beautiful stains are hand applied to produce a rich, lasting finish. To choose the right color for your Trailway furniture, consider the mood you want to reflect in your home's décor. Darker shades tend to look more formal or modern, while lighter stains can feel more traditional or casual. And be sure to keep in mind that the stain color you choose will result in a different look depending on the wood species. We also offer a variety of paint options. The combination of stained and painted pieces together on a table or chair is perfect for more casual décors.

OCS stands for Ohio Certified Stain / OTS stands for Ohio Trailway Stain (we add clarifier & stabilizer)

Even though the tree is dead, Solid Hardwood will expand & contract due to changes in humidity. Breadboard Tops have boards running parallel and perpendicular. You can expect this tenon to expand & contract in different climates. To minimize the movement, the ideal humidity is 40-45%.

JUST THE WAY YOU WANT IT

So now it's time for the nitty gritty - choosing the edge profile and top shape for your Trailway table. It's simple. Obviously, the edge profile is the shape of your table around the edge. You'll find smooth, straight and more decorative options. For your tabletop shape, you can choose from classic rectangular and round shapes to more unique designs. Nearly any top shape can be combined with any edge profile. Ask your dealer for suggestions that will help you achieve the look you want.

EDGE OPTIONS (FREE)

From classic squared or rounded edges to more dramatic styles, Trailway offers nine beautifully crafted edge profiles that give your table the perfect finishing touch.

QUALITY FEATURES

Bench made with top quality at every step, Trailway Heirloom furniture includes dozens of special details that ensure your new table and chairs are built to last. Joints, slides, gears and other construction essentials are implemented with precision and tested for performance, promising you years of enjoyment through the heaviest everyday use. Attention to detail is a hallmark of Trailway craftsmanship.

Pictured: 24/7 Happiness Collection

WOOD SLIDES

Wood slides offer smooth gliding operation.

GEAR SLIDES

Precision gear slides open and close quickly to uncover self-stored leaves.
**See each collection to see if self-storing is an option.*

TABLE LEAF PEGS

Durable wooden pegs ensure table leaves fit snug and securely for hassle-free dining.

MORTISE & TENON JOINTS

Trailway construction features tenons securely glued into mortise holes, a simple and strong solution for joining wood furniture pieces together.

EXAMPLE OF MORTISE & TENON ON A CASUAL COMFORT CHAIR

ADJUSTABLE LEVELERS ON TABLE LEGS (FREE)

THIS IS ALSO ON THE CENTER LEGS

Designed to make it easy to adjust and level your dining room furniture. Simply turn the levelers up or down to reach the desired height you are looking for.

ADJUSTABLE FELT LEVELERS ON TABLE LEGS (FREE)

THIS IS ALSO ON THE CENTER LEGS

These help keep your floors free from scratches. They are available upon request.

CHAIR FELT GLIDES ON CHAIR LEGS (FREE)

These felt glides come standard on all 4 legs of your chair and will help keep your floors free from scratches.

How to Protect Your Hand-Crafted, Solid Hardwood Investment!

Thank you for investing in your new Hand-Crafted, Trailway dining set. We want you to enjoy your new furniture for many years to come. Please follow the tips to ensure the longevity of your new furniture.

CLEANING RECOMMENDATIONS

A soft, damp cloth is all you need to keep your fine heirloom furniture looking like new. Wiping with a dry cloth can harm the furniture's finish by scraping small dirt particles into the surface. If you choose to polish your furniture, **Avoid products with silicone, wax, solvents or abrasives.** Your dealer will recommend a suitable polish.

SUNLIGHT EXPOSURE

While you may like lots of sunlight in your home, sunlight's ultraviolet rays can damage wood. Make sure your new furniture is not in a location where the sun will shine directly on it or use sun screening drapes during intense sunlight hours. Fluorescent light fixtures can also cause changes in the wood or finish of your table. **PLEASE** be careful when using laptops or tablets on the tabletop, as these can get hot and could scratch the finish.

HEAT EXPOSURE

Heat registers and other heat sources can cause damage to your new dining set. Be sure to place it in an area where there is air circulation and heat sources are not directly blowing onto the table and chairs. Do not place hot pans directly onto your tabletop. A table pad will create a barrier between a hot pan and the wood surface. At a minimum, a heavy-duty tablecloth and trivets should always be used.

HUMIDITY CONTROL

The humidity in your home can affect wood furniture. If the humidity is too low, it may cause your Trailway furniture to dry out or crack. In contrast, high levels of humidity may result in warping. By keeping the humidity level in your home around 40-45%, you'll have the ideal environment for preserving the beauty of your new furniture.

NAIL POLISH REMOVER

Although we use a high-quality heat-and-moisture resistant finish on our tables, nail polish remover can cause severe damage to its finish. Please avoid using it unless you cover the table surface first with a table pad.

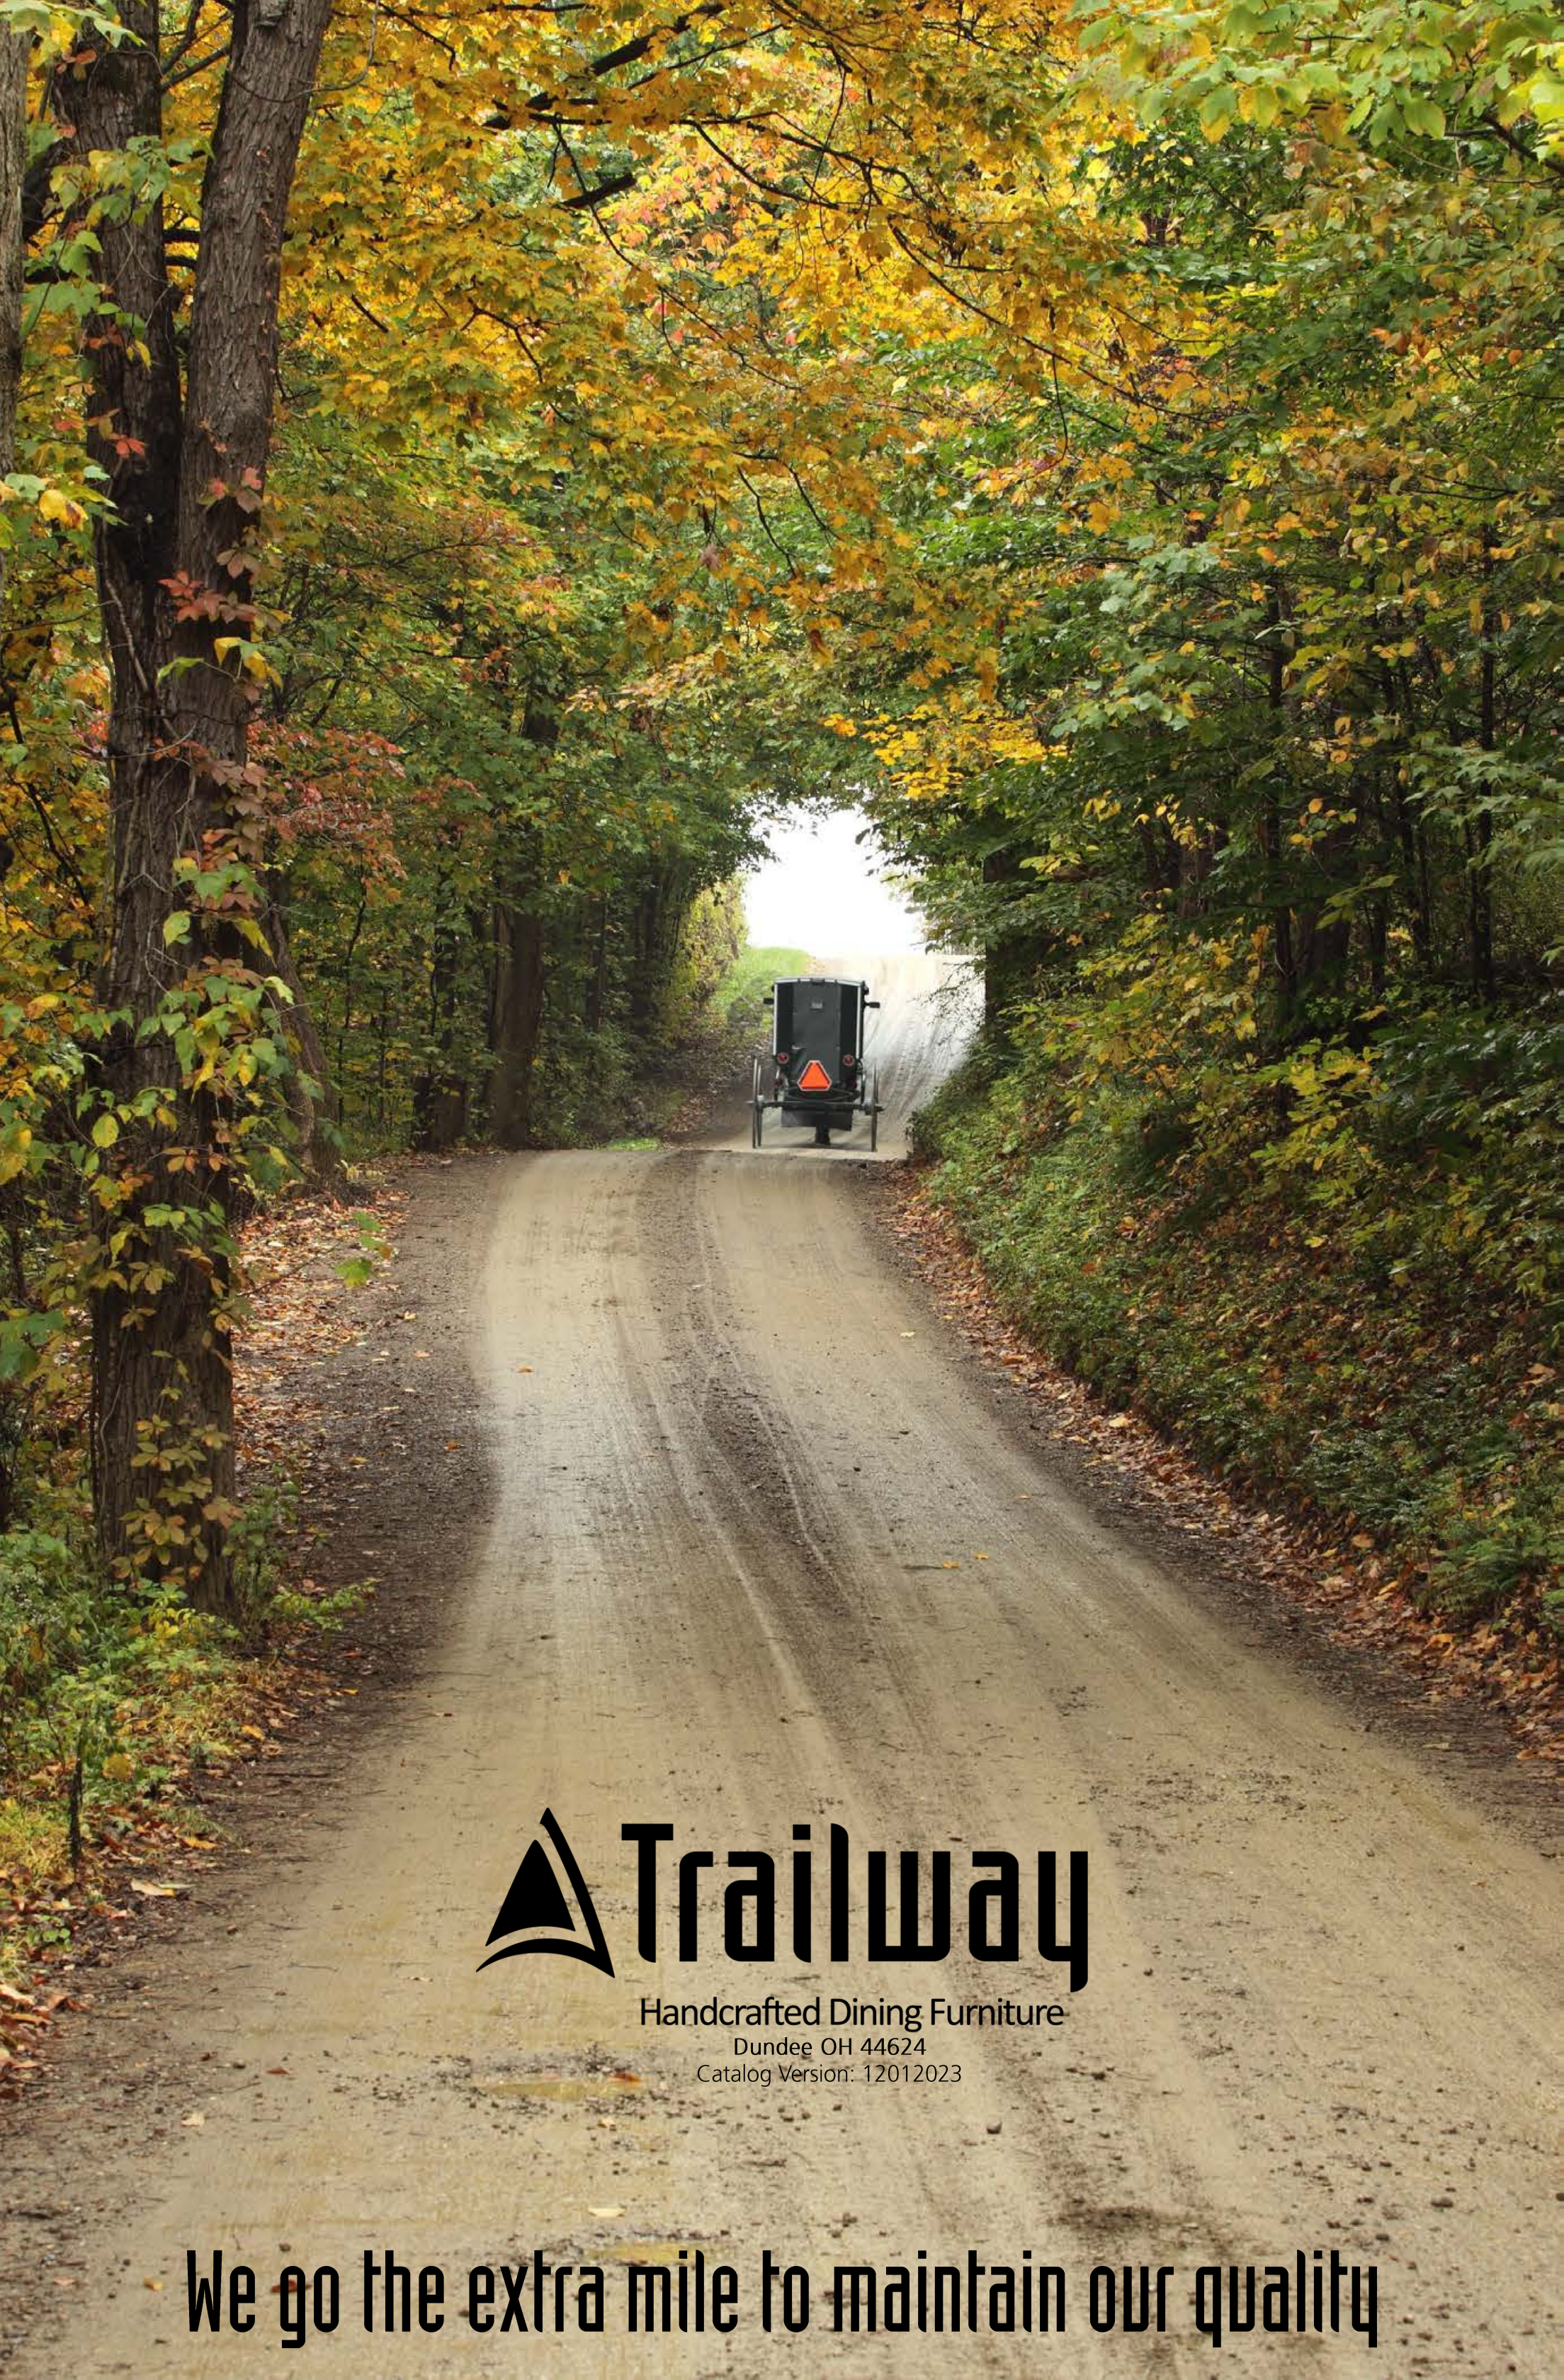

WATER RESISTANT FINISH

The finish on your table is spill-resistant, but it's a good idea to wipe up any moisture immediately. Standing liquid will cause damage to the wood and finish.

FINISH RESISTANCE

Chemical resistance tests are performed to check the coating's ability to withstand substances typically found in kitchen and bathrooms. Aristovar meets AWI specifications TR-4 rating for chemical resistance.
